Fall 1932—(FOR THE TRADE)—Fall 1932

Wholesale Price List **REGAL ROSES**

No. 1 Dormant, Two-year Field-grown Roses

Budded on Multiflora seedlings, grown at WEST GROVE, Chester County, Penna.

Unsurpassed for Quality.

New and modern varieties at low prices. Over 200,000 plants for sale. Large quantities of each variety available.

Ready for delivery about middle of October.

We earnestly recommend Fall Planting. Plants are freshly dug, with no loss of energy through storage. The soil is moist and mellow, insuring success in planting. The roots of the plants will have a good opportunity to establish themselves, so that they will start to grow, at the first spark of Spring. The only precaution necessary is to hill up the soil about the plants fairly high to protect against freezing.

No Better Product Grown. No Fairer Prices.

TERMS: Our Terms are Cash.

Prices are F. O. B. our nursery. Packing and boxing at cost. 10% deposit required on all booked orders, balance on delivery.

HOW TO GET TO OUR NURSERY:

We are located at Jennersville, one mile southwest of WEST GROVE, in Chester County, Pa., on Route No. 1, the Baltimore pike, between Philadelphia and Baltimore; 40 miles southwest of Philadelphia and 60 miles northeast of Baltimore. Our office adjoins our WOODEN SHOE INN.

We would like you to come and see us; we would be glad to show you around our fields.
